BUSINESS

As an experienced industrial management provider, **HC Heinrich Consulting** offers a very attractive mixture of technical and business expertise. Operational strategy and firm implementation are our passion. Clear operational and financial objectives are our business challenges. It is our proven nature to keep pace with rapid changes in business, even under low budget and tight deadlines. Consequently, we succeed in finishing our assignments together with all peers and within the operational and financial scope.

BUSINESS SECTORS

- Automotive / Train Industry
- Metal / Electronic Industry
- Boatbuilding / Plastics Industry

GUIDING PRINCIPLE

Just targets we measure are targets we get!

LIST OF PROJECTS

2022 – 2024
21 Months

OEM Boatbuilding, AG, Greifswald

Boatbuilding Industry, 180 M€ turnover, 1,650 employees

Interim Manager

Production Director at the Greifswald site (600 employees) with four assembly lines and two pre-assembly lines. Series production of sailing and motor yachts with a hull length of up to 66 feet. Continuous flow production in synchronized lines.

This assignment was particularly marked by the transformation of a shipyard dominated by craftsmanship into industrial series production. To support this, the management routines (QCD) were standardised, a key figure system was introduced, and a quality and productivity offensive was launched.

The number of accidents at work was more than halved. The number of errors per boat has been reduced by 60% and productivity has been increased by 17%. At the same time, the backlog of unfinished boats has been reduced to 0%.

The company's EBIT improved from a loss in the low double-digit millions to a profit in the high single-digit millions.

2019 – 2021
2 Years

OEM Building Supplier, GmbH, Pirmasens

Construction industry, 140 M€ turnover, 560 employees

Interim Manager

Plant Manager at the site with four production areas: metal sheet metal processing (2 lines), plastic extrusion (38 lines) and injection molding (56 machines) as well as electrical engineering assembly (3 areas).

This deployment was particularly marked by the corona pandemic and at the same time a strong increase in customer demand (+30%) for building technology. The health of the employees could be ensured and the ability to deliver was maintained. At the same time, the management routines (QCD) were standardized, and a Group-wide production system was introduced.

2019
3 Months

Automotive Supplier Metal, GmbH, Hildburghausen

Automotive industry, 12 M€ turnover, 90 employees

Consultant

Advisory Support to the technical plant manager in the preparation of a master plan for the reorganization of the plant.

After a short analysis, a recommendation for action was drawn up and a master plan was developed together with the management group. The implementation of the master plan was supported.

2018 – 2019
4 Months

Automotive Supplier Powertrain, GmbH, Olpe

Automotive industry, 35 M€ turnover, 300 employees

Interim Manager

Deputy Plant Manager at the site. Support of the responsible plant manager during the restart of several products. Ensuring quality and quantity of series delivery to well-known OEMs on time. Organizing and leading the task force team at the plant.

2018
4 Months

OEM Material Testing Systems, GmbH, Ulm

Machine Industry, 195 M€ turnover, 1,350 employees

Interim Manager

Head of Production at the Ulm site with production, assembly, industrial engineering, purchasing and logistics. Responsible for a turnover of 85 M€ and disciplinary management of 250 employees.

Vacancy bridging with a focus on quality, productivity and cost-effectiveness in production.

2018
4 Months

Automotive Supplier Interieur, GmbH, Coburg

Automotive industry, 40 M€ turnover, 350 employees

Interim Manager

Plant Manager at the site. Responsible for injection molding, toolmaking, assembly, industrial engineering, quality and logistics. Ensuring quality and quantity of on-time series delivery to well-known OEMs and suppliers.

Create and introduce a concept for group work. Selection and induction of the successor.

2017 – 2018
5 Months

Metal Industry, GmbH, Bamberg

Metal Industry, GmbH, 39 M€ revenue, 410 employees

Interim Manager

General Project Manager (PMO) for 13 projects in all divisions. Responsible for the implementation of the turn-around concept on time and within budget as well as managing 13 project managers.

Goal: Reduced order backlog and restored on-time delivery. Sustainably secured sales growth and profitability.

2016 – 2017
11 Months

OEM Hybrid Sensors, GmbH, Nuremberg

Electronic Industry, GmbH, 45 M€ revenue, 150 employees

Interim Manager

Production Director at the Nuremberg site with clean room production, assembly, final inspection, maintenance and logistics. Responsible for a turnover of 45 M € and disciplinary leadership of 150 employees.

Short-term capacity increase of up to 30% to meet customer demand. Quality and production initiative planned and implemented. Management control and reporting system (MCRS) introduced with operational key performance indicators (KPI).

2016
5 Months

Automotive Supplier of Interior Parts, GmbH, Hanover

Automotive Industry, GmbH, 33 M€ revenue, 250 employees

Interim Manager

Plant Director in Walsrode with injection moulding, tooling, assembly, industrial engineering, quality and logistics. Responsible for a turnover of 33 M € and disciplinary leadership of 250 employees.

Ensuring the timely serial delivery (PRO1) of an OEM in quality and quantity. Create and introduce KPI & MCRS concept. Advancing infrastructure projects and investments for site security. Operational accompaniment of the M & A process.

2016
1 Month

Automotive Supplier of Interior Parts, Ltd., Liverpool

Automotive Industry, 300 M£ revenue, 400 employees

Consultant

Logistics Consultant at GB-Liverpool location with planning, goods, raw material storage, picking and production logistics. Consulting the plant manager and logistics manager for sustainable inventory backup.

A project to reduce and avoid the considerable stock differences was carried out (by date >100 K£/month on target <60 K£/month). Target: inventory / cost reduction and protection to deliver in the JIT / JIS business.

2015
8 Months

OEM Material Testing Systems, GmbH, Ulm
