**Daniel Chen** · 1.

Executive Leadership for the Purpose Driven Enterprise: Road Safety, Worker Safety, Public Health  
27. Dezember 2018, Daniel Chen war ein:e ranghöhere:r Kolleg:in von Dr.-Ing. Suat Akyol, aber kein:e direkte:r Vorgesetzte:r von Dr.-Ing. Suat Akyol.

I worked very closely with Suat on our emerging renewable energy business. Suat is a highly energetic and deep thinking individual. There are few individuals able to combine both strategic and tactical level thinking and Suat is one of them.

**Roberto D'Amico** · 1.

Retired 3Mers - Former VP Enterprise Customer Operations EMEA

27. Februar 2025, Roberto D'Amico war ein:e ranghöhere:r Kolleg:in von Dr.-Ing. Suat Akyol, aber kein:e direkte:r Vorgesetzte:r von Dr.-Ing. Suat Akyol.

Suat worked in my International Team covering Europe, Middle East and Africa. I followed his career and skills development over the years.

Strong project management skills, business growth mindset , willingness to expand his knowledge with in depth studies, learning from customers and ability to work in international and multi-cultural contexts make him a suitable candidate for senior management positions both in business and/or other functions.

**Cagatay Guler** · 1.

Vice President EMEA at Solvendum (Formerly 3M Healthcare)

30. Dezember 2019, Cagatay Guler war ein:e ranghöhere:r Kolleg:in von Dr.-Ing. Suat Akyol, aber kein:e direkte:r Vorgesetzte:r von Dr.-Ing. Suat Akyol.

Suat is an exceptionally smart professional who is able to connect insights from a plethora of sources to drive action to achieve established goals. His skills in collecting information and connecting different sources to then drive meaningful conclusions is uncanny. He has a keen sense of progress and is always looking to improve both himself and the organization in which he operates.

Suat is able to discern complex problems in today's ever increasingly connected world into simpler and manageable pieces. His skills in doing so were invaluable to the organization I led where he was an active leader.

**Christa Sieverding** · 1.

3. März 2025, Christa Sieverding war direkte:r Vorgesetzte:r von Dr.-Ing. Suat Akyol.

I had the opportunity to work with Suat while I was serving as Country Business Leader in 3Ms Healthcare business group, and he was one of my Regional Sales & Marketing Managers in the DACH region. In this role, Suat successfully led a team of 80 people, demonstrating strong leadership and strategic thinking skills as well as excellent customer facing competencies.

Suat combines expertise in Artificial Intelligence, Data Science, Sales, and Marketing with a thoughtful and people-oriented leadership style. He was well-respected by his team, known for his clear communication, ability to motivate others, and commitment to their professional growth.

His analytical mindset, problem-solving skills, and structured approach contributed significantly to our business success. I highly recommend Suat and am confident that he will add value in any future role.

**Douglas Huntley** · 1.

Sr. Global R&D Director at 3M

29. November 2018, Douglas Huntley und Dr.-Ing. Suat Akyol waren im selben Team tätig.

Strong global business development skills as exemplified by his leadership in the Wind Energy sector.

**Ken Walsh** · 1.

Senior Commercial Officer at U.S. Commercial Service

1. Mai 2020, Ken Walsh hat mit Dr.-Ing. Suat Akyol zusammengearbeitet, war aber bei einem anderen Unternehmen beschäftigt.

Finding individuals who can explain the complexities of the digitization of the U.S. and German healthcare markets is no easy feat. Thankfully, we met Suat at a digital health summit in Berlin at the 3M booth. He was super generous with his time discussing the structure, challenges, and potential solutions to issues that are vexing governments, practitioners and solution providers/integrators. We invited Suat to speak to our global meeting of healthcare specialists representing markets in Europe, North America, Middle East and Asia. His presentation was well received and we have utilized his expertise from time-to-time since then. Thanks, Suat.

**Hans Karlsson** · 1.

Management/Konsult/Förbättringsarbete

15. November 2018, Hans Karlsson und Dr.-Ing. Suat Akyol waren im selben Team tätig.

Suat and I attended Black Belt training together back in 2007 and during our assignment we maintained a communication port open and did both best practice sharing as well as providing advise and support.

Passed our Black Belt assignment we've kept that communication port open.

With the broad experience and competence that Suat has, adding the ability to make use of and apply that in in different situations, Suat is always delivering solutions and suggestions to problemstatements that takes the edge of them.

I can highly recommend Suat, with the energy and engagement he is taking on tasks and resolves them he is an true asset that do make a difference.

**Attila Molnar, M.Eng, PhD** · 1.

Polymer Scientist at Mackinac Technology Company

4. Januar 2019, Attila Molnar, M.Eng, PhD und Dr.-Ing. Suat Akyol waren im selben Team tätig.

I have known Suat Akyol for about 10 years and I met him while we were both working for 3M's Renewable Energy Division. Suat has a unique ability of combining his technical knowledge with his business acumen. He welcomes leadership opportunities and meets his deadlines on time.

At 3M he learned new technologies quickly and applied them to leverage 3M technologies into the fast-paced renewable energy market . An example of this is his collaboration with universities and institutions (DLR) in Germany to present a paper at the global SolarPACES Conference in Perpignan, France, in September 2010. The presentation was an excellent demonstration of the benefit of employing 3M technologies to increase solar power generation efficiencies.

**Çağrı KIRTELER** · 1.

Strategy and Transformation Advisor to the CCO @Şişecam | Industrial Markets | Growth and Transformation Practice

14. Januar 2019, Çağrı KIRTELER und Dr.-Ing. Suat Akyol waren im selben Team tätig.

I had opportunity to work with Suat when I was managing Solar Energy Business in 3M.

His guidance to our market in identifying and working on opportunities was inspiring and result oriented with a structured follow up.

He had a a "customer first" mindset focusing on what customers may need and want, building value on a good mix of technical and commercial understanding.
